**1. Seven back-to-back, blood-red moons have fallen on the first day of Passover and Sukkot, with the eighth time coming in 2014 and 2015.**

**2. We have had blood-red moons on the first day of Passover and the first day of Sukkot on back-to-back years seven times since 1 A.D. Three of these occurrences were connected to 1492 (the final year of the Spanish Inquisition), 1948 (statehood for Israel and the War of Independence), and 1967 (the Six-Day War) — some of the most significant days in Jewish history.**

**3. The others were in 162/163 A.D., 795/796 A.D., 842/843 A.D. and 860/861 A.D. We don't have any historical connections for these years at this time, but we do know of significant Jewish persecution during the eighth and ninth centuries.**

In all eight examples, the eclipses have fallen or will fall on the first day of Passover and Sukkot.
